

Individual Declaration of Support

Whereas:

- there is a need to provide cohesion and definition to the emerging profession of sustainability
- there is a need to provide credibility for employers and assurance of a standard level of competency of the sustainability professional
- there is a need to provide practitioners in the field evidence of competency, furthering their credibility, influence and career advancement opportunities

I hereby declare my support:

For Professional Sustainability Certification

I support the need for the development of professional certification for the sustainability practitioner

By the International Society of Sustainability Professionals

I support the International Society of Sustainability Professionals (ISSP) leading the creation of a global sustainability professional certification

By signing this declaration, I acknowledge I am an ISSP member and agree to being recognized as an official supporter (e.g. name on ISSP's website)
