

# Organization Declaration of Support

Whereas:

- there is a need to provide cohesion and definition to the emerging profession of sustainability
- there is a need to provide credibility for employers and assurance of a standard level of competency of the sustainability professional
- there is a need to provide practitioners in the field evidence of competency, furthering their credibility, influence and career advancement opportunities

Our organization hereby declares its support:

## For **Professional Sustainability Certification**

Our organization supports the need for the development of professional certification for the sustainability practitioner

## By the **International Society of Sustainability Professionals**

Our organization supports the International Society of Sustainability Professionals (ISSP) leading the creation of a global sustainability professional certification
